Chief, IC.

ZK-8-1

Chairman, Projects Review Committee

14 April 1948

Executive for Administration and Mgt.

Population and Manpower Study

25X1A9A

1. I have discussed the attached project dated 13 April 1948 submitted by ICAPS with [ ] who initiated the project, and find that:

a. The \$70,000 cost is an annual cost predicated on fiscal year/operations.  
1949

b. It is desired to begin operations immediately upon approval of this project, which would involve an additional undetermined cost for the balance of the fiscal year 1948 depending upon how rapidly personnel could be employed.

c. It is the desire of ICAPS and the Bureau of the Census to establish this project on a working fund basis through the fiscal year 1950 which would involve double the estimated annual cost of \$70,000 plus interim cost for the balance of this fiscal year. A reasonable estimate for the entire period would be approximately \$150,000.

2. Recommend that, in addition to ICAPS, the Assistant Director for Reports and Estimates and Assistant Director for Collection and Dissemination be represented at the PRC meeting to consider this project.
